Dear Customer,

Thank you for purchasing an S2K product. If you have any problems or require further information on this or any other products in the S2K range, please contact us by any of the means listed above.

PLEASE READ CAREFULLY.

SAFETY FIRST!

When cleaning up resin parts a certain amount of dust will be created. Resin dust can be harmful so we recommend the use of a dust mask while performing this task. Think also of those around you by finding a suitable area for the job. Take similar precautions with any other substances such as adhesives and paints etc. Your kit will contain a number of small parts which may be easily swallowed so keep these out of reach of small children and or animals.

BEFORE YOU BEGIN.

Before assembly, gently wash all resin parts in warm (not hot) soapy water to remove any mould release agent, which may effect paints. Do not attempt to remove casting blocks from resin parts by snapping as this can often damage the part. For this task we recommend the use of a razor saw or similar tool. For best results use cyanoacrylate (super glue) for assembly. Two part epoxy glues may be of use for attaching larger parts.

Thank you for your attention.

Happy modelling.

Marc Day.
